What are EYFS learning about this half term?

Literacy

They will explore traditional stories and begin to understand story maps.

Maths

They will develop their number recognition skills and begin to use subitising skills to recognise amounts.

History

History is a strand within Understanding the World in the Early Years Foundation Stage.

Through Amazing Me, children will explore their own lives, families and experiences.

They will learn that everyone has a history and that photographs, memories, stories and special objects can help us find out about the past.

Ask questions

Look at photographs and evidence

Share memories and stories

Notice change over time

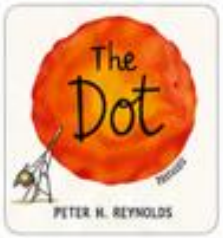

Learn about family and belonging

Celebrate what makes them unique

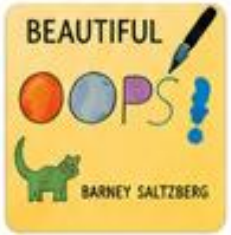

Art

Focus: Exploring colour, marks and materials. Making self-portraits and pictures of me.

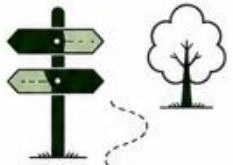

Geography

- Geography is a strand within Understanding the World in the Early Years Foundation Stage.
- Through Amazing Me: Where I Belong, children will explore their home, school and local area.
- They will observe places, people and environments and begin to understand how they belong to different communities.
- They will ask questions, make simple maps, use words to describe places and begin to care for the world around them.

Ask questions

Explore places

Observe closely

Make maps and plans

Record our learning

Share our ideas

Care for our world

Science

Science is a strand within Understanding the World in the Early Years Foundation Stage.

Through *Amazing Me: My Body,* children will explore and learn about their bodies, senses, growth and health.

They will investigate, observe and find out how their bodies work and how to keep them healthy.

They will ask questions, test ideas and use evidence to help them understand their amazing bodies.

Ask questions

Explore and investigate

Observe closely

Test ideas and predict
